Subject: Recommendation letter

Ms. Diane Chabrerie is a former ESIEE Paris student. She joined ESIEE Paris in 2024 and attended my course on analog electrical circuits.

This 30-hour course focuses on operational amplifier, diode and bipolar transistors circuits. It is structured into 10 hours of lectures, 10h of tutorials and 10h of practical lab sessions.

Ms. Chabrerie achieved excellent academic results, earning the top grade in her class of 115 students. She was highly involved, diligent and consistently produced work of very high quality.

For these reasons, I highly recommend Ms. Chabrerie for an academic semester at your institution.

Please do not hesitate to contact me if you require any further information.

Best regards.

Prof. Corinne Berland
